# **Endangered Species Desk Evaluation**

Project Title	Endangered Species Desk Evaluation
Project Summary	Compile the likely endangered species lists for domestic DOS facilities across the united states.
Country	United States

## **Project Description**

The student will receive a publicly available list of addresses for domestic facilities. The student will then find and evaluate federal/state/local data each facility with respect to likely endangered species. All data sources will need to be documented. The student's final product will be a series of facility specific lists of likely species and reference information that will be added to future project scoping.
